## BASIC INFORMATION

I am a self-taught front-end web developer, and I've always found coding intuitive and have pushed myself to learn the most effective methods and languages to achieve a specific task.

I'm a fast learner and am excited to integrate into a team and become an invaluable asset to a company, bringing value to the company and its customers.

## EDUCATION & CERTIFICATION

### • The Complete JavaScript Course 2021: From Zero to Expert!

68.5-hour Complete JavaScript Course

### • The Creative JavaScript course: From Beginner JS to Building Awesome Web Apps and Websites

Instructor: DevEd

### • React - The Complete Guide (incl Hooks, React Router, Redux)

Instructor: Academind by Maximilian Schwarzmuller

## BACKGROUND

Starting a business at 19 years old and operating it for the past 12 years has taught me a lot that cannot be taught by other methods than just by doing it. I've failed at times and missed opportunities for growth, but it is this experience that makes me a great asset to your team.

However, through every adversity, I found satisfaction in finding a solution to the problem and am excited to find out what problems I can help you solve if I am given the opportunity to be a part of your team.
